Dear Josh:

Enclosed you will find the galley-proof which you were so kind in sending. I appreciate very much the opportunity to read this, and let me say that I enjoyed every minute of it, not only for the beauty of the experiments, but also for a rather surprisingly remarkable ability to write.

I whall write you at greater length in a little while after I have had a little time to digest the data further. In the meantime, thanks again.

Sincerely yours,

S. Spiegelman
